

Our Mechanical Engineering Capabilities

Capabilities

- High Performance Engineering in Emerging Technologies
- Electronic Packaging In Sheet metal, Injected Plastics and Castings
- 2D/3D Mechanical Design / Drafting
- Thermal, Structural, and Modal Analysis
- EMI Shielding
- Flex Circuit and Cable Design
- Complete Documentation
- Prototype Fabrication, Assembly, Test, and Rework
- QA Inspections and Reports
- DfX (Manufacturing, Fabrication, Test, and Cost)

Development Tools

- ProEngineer 2001 / Wildfire2
- Autocad
- Solidworks
- Solid Edge
- Pro/Mechanica
- CFDesign
