

Core Source Technologies
Job Description

Mechanical Engineer

ABOUT CORE SOURCE TECHNOLOGIES

CoreSource Technologies LLC is a core engineering services firm specializing in providing cost effective partial or full turn-key outsourcing solutions for today's flexible and demanding product development environments. We currently have a contract or permanent position requirement for a Mechanical Engineer / BSME.

DUTIES & RESPONSIBILITIES

This position requires a hands-on self starter who will be working in a highly diverse and exciting environment. A thermal background is a major plus but not required. Travel will be minimal and local. If local, the option of telecommuting within reason is available. If you have the technical, organizational and tools experience give us a call.

REQUIREMENTS

- BSME Mechanical Engineering
- 10+ years experience in product packaging within plastics and metallic enclosures.
- Thermal / Ejection molded plastics
- Sheetmetal Fabrication knowledge
- At Least 4000 hrs ProE experience
- Program / Project lead experience
- Thermal analysis experience (system level) is a plus
- Environmental Simulation / Shock / Vibration / etc.

Other:

- Possess good verbal and written communication skills
- Work effectively and professionally with others
- Adhere to ISO work instructions and other company policies

MISCELLANEOUS

Hours: 8:00 a.m. to 5:00 p.m. Monday-Friday, 1 hour lunch
Overtime as required
