

Our Offerings

Who We Are

Core Source is a core engineering services firm specializing in providing cost effective partial or full turn-key outsourcing solutions for today's flexible and demanding product development environments. Our team can be quickly integrated into any phase of the product development lifecycle adding new life to a slow project or to meet special resource and technology needs. Our core business focus is on accelerating product development timelines through innovation, experience and cost effective solutions. Our services include:

- Mechanical Engineering
- Mechanical Design / Documentation / Analysis / DFX
- Hardware Engineering / Design / Analysis
- Schematic Capture Library Development
- PCB Design and Development / Fabrication Consulting
- Prototype and Test Fixture Development
- Safety, CE Mark, FCC, Environmental, and NEBS Test Support / EMC Pre-screening / Consulting
- Technical Publications / Online help / Manuals / Service Manuals / Installation Guides
- Supply Chain Services / Component Selection / Price Negotiation / Tracking / Kitting
- Industrial Design Services

Our Value Proposition

- We provide a wide range of engineering solutions with professional, experienced engineers, technicians, and product managers.

Core Source Team members have many years of experience in mechanical engineering, hardware engineering, electrical design and analysis, printed circuit board development, regulatory compliance and testing, product prototyping, technical publications, supply chain management, new product introduction, and project management.

- We provide reliable, timely and cost-effective product development options. An alternative that companies need to survive in today's extremely competitive market.

Core Source has proven product development savings of over 25 percent, while reducing in-house operational costs, decreasing turnaround time, and improving overall product quality.

- We offer engineering services with professional, experienced engineers, technicians and product managers.

Core Source customers encompass a broad range of business disciplines, including telecommunications, security and defense, transportation, information technology, green technologies, medical devices, and consumer products. Core Source can assist with successful product development for companies of all sizes, from start-up to established.
