Expertise in innovative solutions

Highly experienced in engineering electronic enclosure designs that meet challenging specs and requirements:

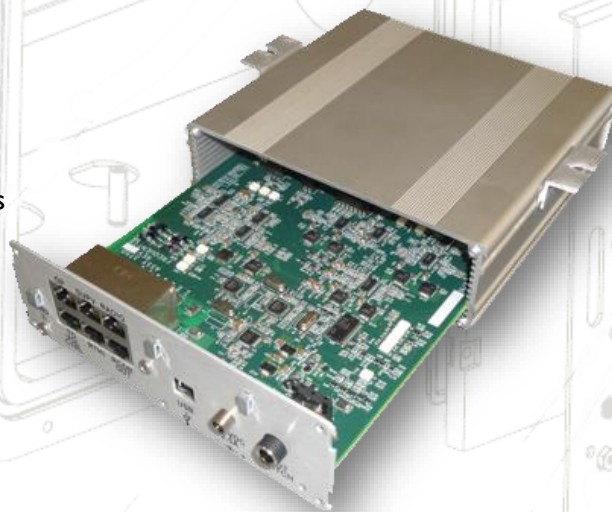

- Rugged/high stress environments
- Size/weight restrictions
- Thermal/stress analysis
- Wire harness consolidation
- Cost reductions/feature additions
- Plastics, sheet metal & machined component experience

Have it your way

Our engineering team can provide consultation, DFMA, task-oriented requirements, concept designs through prototype. Development is supported by full engineering documentation. All IP (intellectual property) is a deliverable. It's up to you, how far you'd like to go.

Who we are

Core Source Technologies (CST) is a core engineering solutions firm specializing in cost-effective, partial and full turnkey outsourcing solutions. Our business focus is on accelerating product development timelines through innovation, experience, and cost-effective solutions.
